# CUSTOM EQUIPMENT

## STORAGE TANKS & PRESSURE VESSELS

Vertical  
Horizontal  
Cylindrical or Rectangular

Acid Reaction Tanks  
Batch Tanks  
Blend Tanks  
Collection Tanks  
Condensate Tanks  
Condenser Tanks  
Esterification Tanks  
Feed Tanks  
Filter Feed Tank  
Formation Reactors  
Hydrogenation Reactors  
Knockout Tanks  
Neutralization Tanks  
Reactors  
Receiver Tanks  
Scrubbers  
Splitting Tanks  
Stripper Feed Tanks  
Surge Tanks  
Vacuum Dryer Tanks

## DISTILLATION COLUMNS

Packing Rings  
Drip/Bubble/Sieve Trays  
Integrated Reboilers

Binary  
Multi Compartment  
Multi Product  
Extractive  
Azeotropic  
Jacketed Kettle

## HEAT EXCHANGERS

Shell and Tube  
Tubular  
Custom Designed

Reboilers  
Cookers  
Condensers  
Chillers

## TANK COMPONENTS

ASME Code  
Integrated  
Fittings / Accessories

Flanged & Dished Tank Heads  
Hemispherical Heads  
Conical/Toriconical Heads  
Elliptical Heads  
Cylinders  
Manways  
Pipe Coils  
Bar/Pipe/Angle Rolling  
Heat Transfer Surface

## CUSTOM FABRICATIONS

Skidded Systems  
Brewery Design  
DOT T-Code Portable Pressure Vessels  
Pipe Spools  
Agitators  
Ladders, Guardrails & Platforms

## MATERIALS

Stainless Steels  
Nickel Alloys  
Reactive Alloys

304/304L & 316/316L  
Nickel 200/201  
Hastelloy® C-276, C-22®, B-3  
Monel® 400/401  
Inconel® 600 & 625  
Incoloy® 800 & 825  
AL-6XN®  
Alloy 20  
904L  
Titanium  
Zirconium  
*ASME VIII qualified for over 45 different materials*

## CAPABILITIES & CAPACITY

Equipment Max Dimensions  
(single piece):  
15'-6" (4.7m) Wide  
17'-0" (5.2m) High  
150'-0" (45.7m) Long  
40,000 lbs (18,000 kg)

Heads to 3/4" thick  
Cylinders to 1" thick

In house Engineering & Design  
Structural/Seismic/Wind load design

## DESIGN/FABRICATION CODES

ASME VIII Division 1 (U-stamp and R-Stamp)  
API 620 / 650  
DOT  
UL 142  
UN  
NFPA  
FDA / USDA
